

### **12kW<sup>1</sup> w/ 150 Amp Overview Copy:**

This Briggs & Stratton® standby generator protects your home and family with affordable, reliable Briggs & Stratton backup power. This generator is 50% smaller and 60% quieter than our previous model. Its streamlined design meets the power needs of your whole house, with a more compact, affordable unit. This home standby generator includes outdoor/indoor NEMA 3R rated automatic transfer switch for easy installation. You can truly power more for less with this little powerhouse.

#### **Features & Benefits:**

- Thanks to Symphony® II Power Management System, a smaller home generator system by Briggs & Stratton can meet all your needs and save you money in the process.
- This 12kW<sup>1</sup> with Symphony® II Power Management can manage a home, up to 5,500 square feet with a 4-ton air conditioner saving you thousands less than a previously required 20kW<sup>1</sup>
- Includes 150-Amp managed whole house SED automatic transfer switch
- Compliancy with the NFPA 37 standard means it can be placed as close as 18" from your home for flexible placement<sup>3</sup> options — perfect for tight lot lines.
- Automatically sends back up power to your home in seconds after sensing a power outage
- Durable home generator enclosures are made from the same rust-resistant, Galvanneal steel that is used in the automotive industry
- Dependable engine power from commercial-grade Briggs & Stratton engines
- Comprehensive generator warranty<sup>2</sup>
