

### **20kW<sup>1</sup> w/ 150 Amp Overview Copy:**

This Briggs & Stratton® home generator provides reliable backup power for homeowners during a power outage. This generator makes sure your appliances stay on so you and your family aren't left in the dark. Includes outdoor/indoor NEMA 3r rated automatic power transfer switch, providing flexible installation.

#### **Features & Benefits:**

- Thanks to Symphony® II Power Management System, a smaller home generator system by Briggs & Stratton can meet all your needs and save you money in the process.
- This 20kW<sup>1</sup> with Symphony® II Power Management can manage a home, up to 12,000 square feet with a 5-ton air conditioner saving you thousands less than a previously required larger, liquid cooled unit
- Includes 150 Amp Automatic Transfer Switch
- Reliable, commercial-grade Briggs & Stratton Vanguard™ engine handles the most demanding jobs
- Compliancy with the NFPA 37 standard means it can be placed as close as 18" from your home for flexible placement<sup>3</sup> options — perfect for tight lot lines.
- Automatically turns on the backup generator for your home in seconds after sensing a power outage
- Comprehensive 5-year parts and 3-year labor limited warranty<sup>2</sup>
- This standby generator is available for sale in all 50 states
- Rated for operation in areas with low natural gas pressure. This home generator can operate at 3.5" to 7" water column.
